

Avalanche danger

Forecast through: 22.12.2024, 17:00 / Next update: 22.12.2024, 08:00

Wind slab

Avalanche prone locations Danger description

As a consequence of new snow and a strong to storm force westerly wind, extensive wind slabs will form. These can be released easily by a single winter sport participant. The number and size of avalanche prone locations will increase as the day progresses. Avalanches can reach large size in the afternoon. Snow sport activities outside marked and open pistes call for experience in the assessment of avalanche danger.
